

Reach out and build hope!

Join hands with your sisters in Kitui, and together we can build hope for a brighter future!

The dormitory project has already created jobs, is sustaining the livelihood of the women of Kitui, and is helping to ensure the future of young female students! With your church's support, this project can continue being successful!

In a land of immense poverty and drought, the mothers of Kitui, Kenya, know that their daughters' future success depends upon a good education. Yet there is a lack of safe and secure dormitories for these young women, so many of them do not get to continue their education.

As members of the Archdiocese of St. Paul and Minneapolis, let's join together with these mothers in solidarity and prayer to help them realize their goal of building an all-women's dormitory!
